I have asked [redacted] to proceed with the [redacted] call-type contract mentioned in [redacted] 1499 at the price quote of [redacted] per flight hour noted in reference. The primary purpose for this contract is to enable us to be in a posture to utilize the JetStar at such times when equipment tests can best be accomplished, from a technical and economical point of view, in this unique platform. Secondary objectives include the use of the aircraft in emergency situations (involving [redacted] and primary vehicle flights) as well as for special personnel transport purposes. In regard to the last mentioned and in view of the availability of the Constellations, I want the JetStar used for special personnel carrying purposes only in exceptional cases and in each instance with the prior approval of this Headquarters. A wire from you or [redacted] for this purpose will receive expedite attention here. Contracts would like to have approvals for JetStar utilization numbered serially on a fiscal year basis, i.e., Approval #1/63, #2/63, etc.
